EDUCATION

University of Washington

Master of Science in Business Analytics | GPA: 3.81/4.0

Seattle, WA

Jun 2025 – Jun 2026

Shanghai University

Bachelor of Management in Information Management and Information Systems | GPA: 3.8/4.0

Shanghai, China

Sep 2021 – Jun 2025

EXPERIENCE

NIO

Shanghai, China

A global premium electric vehicle leader with 1M+ deliveries and a 100M+ battery-swap ecosystem.

Business Analyst Intern

May 2024 – Sep 2024

- Led end-to-end development from concept to launch of a proprietary analytics platform serving 10M+ user records, partnered with 10+ business teams to define KPIs and document reporting logic.
- Engineered and maintained automated dashboards using BI tools to monitor daily KPIs, improving analytical efficiency by 1.9x through automated visualization.
- Executed event-based tracking and attribution modeling to identify growth drivers, translating complex findings into actionable insights for senior stakeholders.
- Performed LTV and Cohort Analysis, delivering data-driven recommendations that contributed to 30% ROI increase.

Meituan

Shanghai, China

The world's largest on-demand delivery platform, hitting 150M peak daily orders via a leading instant-retail ecosystem

Business Analyst Intern

Nov 2023 – Jan 2024

- Optimized keyword packages via SQL analysis of 2M+ data points, boosting ad revenue by 4.93% and responding to high-frequency ad-hoc reporting requests.
- Conducted merchant segmentation analysis to design targeted bidding strategies, improving ad delivery precision and increasing advertising sales by 5.03%.
- Developed performance monitoring metrics to evaluate campaign effectiveness and support revenue optimization.

JD.com

Beijing, China

A Fortune Global 500 retailer, managing 1,600+ warehouses with world-class inventory turnover efficiency.

Product Analyst Intern

Jul 2023 – Oct 2023

- Analyzed 10M+ commission and revenue records using Python to validate payout accuracy and identify discrepancies in attribution logic.
- Automated commission and revenue reporting dashboards, reducing manual reporting time by 40% and improving visibility for cross-functional teams.

PROJECTS

BriskStarter Innovation Space (Co-Founder)

Sep 2022 – Jun 2025

- Led a 17-person cross-functional team across product, design, and operations; defined OKRs, allocated resources, and drove end-to-end product lifecycles from ideation to market launch.
- Built KPI dashboards from scratch using Python and Tableau to monitor platform health, user retention, and supply chain efficiency, enabling data-driven product prioritization.
- Analyzed user engagement data to evaluate AI tool adoption, identifying conversion bottlenecks and informing product iterations that grew monetized users by 30%.
- Negotiated partnerships with 20+ businesses and IP vendors; synthesized market data into executive presentations to align stakeholders on product strategy.

Product Recommendation Economy on Generation Z's Consumption Behavior

Mar 2023 – Sep 2023

- Conducted text analysis on 3,000+ user comments and 1,000+ academic papers using Python to identify emerging consumption trends and social media influence factors.
- Segmented consumers using Factor and Cluster analysis, facilitating the development of targeted marketing strategies.
- Applied the KANO model to quantify product review influence, discovering a 40% higher impact on purchasing decisions, which supported strategic decision-making for brand positioning.
